

Entities invest in bioscience company's development of pain management drugs.

Pharma Business Week

August 16, 2004

2004 AUG 16 - (NewsRx.com & NewsRx.net) -- TheraQuest Biosciences, a development stage pain management company, has completed a seed financing round with \$500,000 and \$250,000 investments respectively, from BioAdvance, the Biotechnology Greenhouse of Southeastern Pennsylvania, and Ben Franklin Technology Partners of Southeastern Pennsylvania (BFTP).

TheraQuest is building focusing on analgesic pharmaceutical products with greater safety and effectiveness and less abuse potential than are currently available.

TheraQuest markets TQ-1015, a sustained release opioid analgesic for the treatment of chronic severe pain that is designed to deter abuse. ...
