Relmada Therapeutics Provides Corporate Update and Reports First Quarter 2022 Financial Results

CORAL GABLES, Fla., May 5, 2022 /PRNewswire/ -- Relmada Therapeutics, Inc. (Nasdaq: RLMD), a late-stage biotechnology company addressing diseases of the central nervous system (CNS), today provided a corporate update and announced preliminary and unaudited financial results for the first quarter ended March 31, 2022. The Company will host a conference call today, Thursday, May 5, at 4:30 PM Eastern Time/1:30 PM Pacific Time.

Recent Corporate Highlights

- Appointed Gino Santini, a global biopharmaceutical industry executive with a successful track-record in both operational and strategic roles, to serve as the Corporate Development Strategic Advisor
- Published REL-1017 preclinical Olney's lesion data in the peer-reviewed journal, *Frontiers in Pharmacology*
- Presented REL-1017 data for both HAP studies in two poster presentations and one oral presentation at the Ketamine & Related Compounds International Hybrid Conference 2022

"The expected catalyst-rich 2022 for our late-stage development program, REL-1017 as an adjunctive and monotherapy treatment for people living with major depressive disorder (MDD), continues to progress as planned," said Sergio Traversa, Relmada's Chief Executive Officer. We intend to generate REL-1017 clinical data readouts for the ongoing Reliance Phase 3 program beginning mid-year," continued Traversa. "We anticipate completing the enrollment of Reliance III, the ongoing monotherapy registrational Phase 3 trial and present the top-line results by mid-year 2022, followed by top-line results from Reliance I and Reliance II, the adjunctive MDD studies, throughout the second half of the year."

Relmada is delighted to announce the addition of Gino Santini, a highly experienced biopharmaceutical industry executive to support the Company. Gino is joining with global expertise in both corporate strategy and operational roles and has demonstrated strong value creation skills. He is a former member of the executive team of Eli Lilly, with responsibilities as President of US Operations and SVP of Corporate Strategy and Business Development. After a 28-year career at Lilly, Gino currently serves on the board of multiple

public and private biopharmaceutical companies.

"The potential of REL-1017 to be a transformative therapy for patients suffering with major depressive disorder is an exciting opportunity in the CNS space," said Gino Santini. "I really look forward to leveraging my experience in commercializing innovative drugs and in strategic business development with the Relmada team. Our aim is to expeditiously deliver the most value for those who can potentially benefit from REL-1017."

Upcoming Anticipated Milestones for REL-1017

- Mid-'22 – Data for Reliance III monotherapy MDD trial
- 3Q '22 – Data for Reliance I adjunctive MDD trial
- 4Q '22 – Data for Reliance II adjunctive MDD trial

First Quarter 2022 Financial Results

- Research and development expense for the three months ended March 31, 2022, totaled $25.0 million, compared to $14.0 million for the three months ended March 31, 2021. The increase was primarily driven by increased costs associated with preparing and conducting Reliance, the Company's Phase 3 program for REL-1017.
- General and administrative expense for the three months ended March 31, 2022, totaled $13.3 million compared to $8.4 million for the three months ended March 31, 2021, an increase of approximately $4.9 million. The increase was primarily driven by an increase in stock-based compensation.
- The net loss for the three months ended March 31, 2022, was $39.7 million, or $1.40 per diluted share, compared with a net loss of $22.2 million, or $1.34 per diluted share, for the three months ended March 31, 2021.
- As of March 31, 2022, the Company had cash, cash equivalents, and short-term investments of $220.6 million, compared to cash, cash equivalents, and short-term investments of approximately $211.9 million at December 31, 2021.

About REL-1017

REL-1017, a new chemical entity (NCE) and novel NMDA receptor (NMDAR) channel blocker that preferentially targets hyperactive channels while maintaining physiological glutamatergic neurotransmission, is currently in late-stage development for the treatment of MDD. The ongoing Reliance Clinical Research Program is designed to evaluate REL-1017 as a potential rapid-acting, oral, once-daily antidepressant treatment. In a Phase 2 trial, REL-1017 demonstrated robust, rapid, and sustained antidepressant effects with statistically significant improvements compared to placebo. The Phase 2 study also showed a favorable pharmacokinetic, safety, and tolerability profile of REL-1017 consistent with results observed in previously completed Phase 1 studies.

About Relmada Therapeutics, Inc.

Relmada Therapeutics is a late-stage biotechnology company addressing diseases of the central nervous system (CNS), with a focus on major depressive disorder (MDD). Relmada's experienced and dedicated team is committed to making a difference in the lives of patients and their families. Relmada's lead program, REL-1017, is a new chemical entity (NCE) and novel NMDA receptor (NMDAR) channel blocker that preferentially targets hyperactive channels while maintaining physiological glutamatergic neurotransmission. REL-1017 is in late-stage development as an adjunctive treatment and monotherapy treatment for MDD in adults. In addition, Relmada is advancing a clinical-stage program in neurodegenerative diseases based on psilocybin and select derivative molecules. Learn more at www.relmada.com.
